2nd The Water Cycle - Ella P

Water—

so hard to be seen.
It's there for a minute,
then it disappears.
They say dried up,
but where does it go?

p.

It goes up.
Up into the clouds.
It rises to the top.
Into its fluffy heaven.
All of a sudden—

It's falling.
And now it's somewhere new.
It explores this place.
Then once again,
